# Synchronous vs Asynchronous Learning

More Information Online [WWW.DIFFERENCEBETWEEN.COM](http://WWW.DIFFERENCEBETWEEN.COM)

## DEFINITION

### Synchronous Learning

Learning that involves a group of students engaging in learning at the same time.

### Asynchronous Learning

A student-centered learning method using online resources to facilitate information outside the constraints of time and place among people.

## ASSOCIATED ACTIVITIES

Conducting instant messaging, live chats and video conferencing for real-time learning

Interacting with course management systems, communicating using email, posting in discussion forums and reading articles

# Why Interactive Quizzes?

- Break the ice and build relationships
- Engage students in learning
- Review/Reinforce content
- Formative assessment

# Interactive Quizzes

- Kahoot
- Gimkit
- Quizizz

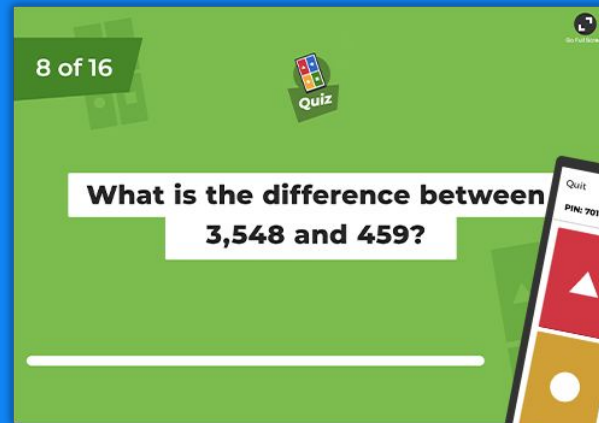

# Synchronous Tips

- Multiple Devices
  - 1 for game, 1 for live class
  - Dependent on software (Zoom, Google Meet, Skype)
- Students first join live class, then share quiz or game code
- Have students join with account or real name
- Allow student to be game host/commentator

# Asynchronous Tips

- Blending learning
- Always provide asynchronous option as backup
- Automatically capture score or have students take a screenshot
  - Be prepared to share ways to capture screenshot on different devices
- Have students join with account or real name

# Kahoot

# FREE Premium Version

Receive FREE access to the Kahoot Premium Version to support distance learning for schools or higher education

[Kahoot Blog Link](#)

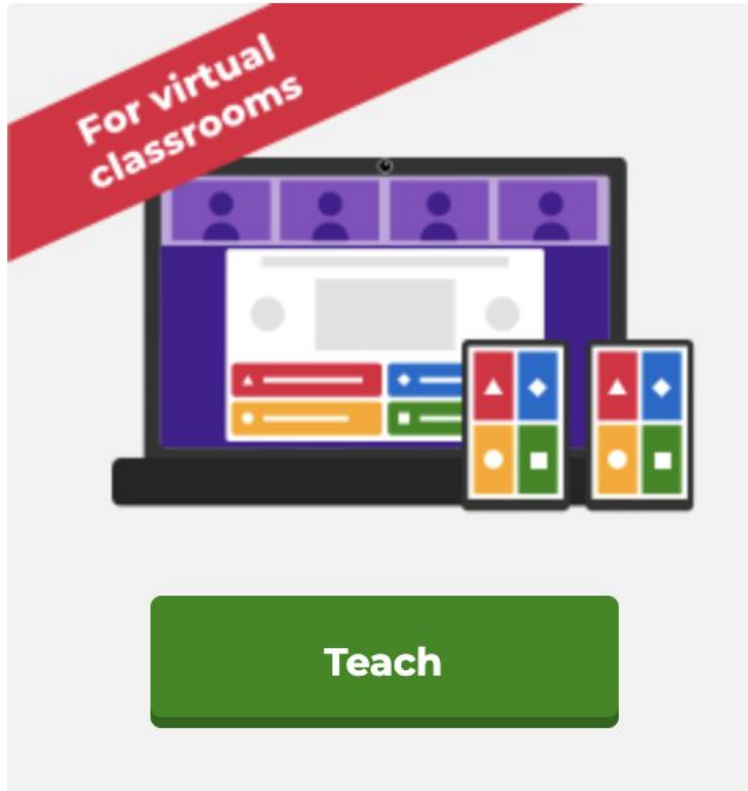

# Fav Features

- Provides opportunities to debrief after questions
- Premium Version - Slide feature to add new content
- Competitive - scores after each question
- Report at the end of the game
- Premium Version - Can share your quizzes with other teachers in the building

\*Beware of spam bots and hacks\*

## Choose a way to play this kahoot

Play a live game together with learners over video or in class

Assign a challenge game to learners who play it at their own pace

# Synchronous

- Teacher will start Kahoot game and Share/Present Screen
- Students will join Kahoot in another window or device
  - They need to see the screen share and their answer choices
- Option to split screen on student devices 
- FYI – Team Mode is made for shared devices

# Asynchronous

- Student paced option
- Question and Answers on student screen
- Students could build their own Kahoots
- Co-create Kahoots by having students submit questions via Google Forms
- Independent practice via the app

# Gimkit

# Fav Features

- Students earn cash with accuracy
- Students continually practice allowing for repetition.  
Teacher sets goal - time, cash to beat, total class cash
- KitCollab - students submit questions for the teacher to accept or reject before playing the live game
- Organize students in classes or share links
- Season competition to track student scores
